A CALL FROM THE SCHOOL NURSE DOESN'T HAVE TO COST YOU A DAY AWAY FROM WORK!

FAQs

How does the school-based program work?

Your child's nurse connects virtually with our provider and uses specialized equipment to listen to the heart and lungs, assess ears, throats, etc. Parents have the option of being a part of the virtual visit by logging into a secure website.

Will my child see a Cook Children's provider?

Yes, your child will be seen by a Cook Children's board certified pediatrician or certified nurse practitioner. A summary of your child's visit will be sent to the primary care physician of your choice.

Does this service replace my child's doctor?

Virtual care is not designed to replace your child's primary care medical home. It's important you have an established relationship with a primary care physician to properly assess your child's development and overall well-being.

Is my video visit private and secure?

Yes, we use a private, secure, and HIPAA-compliant video program.

What if my child needs medication?

If needed, an electronic prescription will be sent to the pharmacy of your choice.
