Benefits of Extra-Curricular Activities

Iowa State Study

- Participation in extra-curricular activities points to improved academic performance
- Activities such as athletics and fine arts teach students how to discipline themselves
- Through extra-curricular activities students learn life skills
- Extra-curricular activities teach analytical skills and creative problem solving
- Extra-curricular activities benefit at-risk students
- Participation in extra-curricular activities leads to reduced instances of discipline problems and substance abuse

Benefits of Extra-Curricular Activities

College Board states:

Colleges pay attention to your life both inside and outside the classroom. Yes, your academics probably come first, but your activities reveal a great deal about you, such as:

- How you've made a meaningful contribution to something
- What your non-academic interests are
- Whether you can maintain a long-term commitment
- Whether you can manage your time and priorities
- What diversity you'd bring to the student body

On Any Friday Night

- 3,000 Community Members
- 2,000 Students in the Stands
 - 500 Band Members
 - 120 Football Players
 - 40 Cheerleaders
 - 120 Drill Team Members
 - 40 Spirit Team Members

A TEAM OF 5820!!!

Points to Ponder...

- We usually don't aim high and miss – We do aim low and hit the mark...
- Prepare kids for open and closed doors
- Prepare your child for the path - not the path for your child...
- Take Risks
- Extra-Curriculars are simply a vehicle for growing a well rounded and well prepared person
