DIRECTOR OF HEALTH SERVICES

January 2010

The School Nurses of Keller Independent School District are already getting ready for the 2010-2011 school year. This includes making sure that all students entering Middle/High school are completely up-to-date on their immunizations.

As per state law, students are no longer allowed a 30-day grace period for provisional enrollment, unless they meet very specific criteria. **New students and returning students must have current immunizations or they will not be allowed to start school.**

All exemptions must be current and presented to the school nurse prior to the first day of school.

For further information regarding immunization requirements, contact www.ImmunizeTexas.com or call (512) 458-7284 or (800) 252-9152.

For your convenience, Keller ISD will be offering immunization clinics throughout the spring at the following locations:
