

Bette Perot Elementary

Student Arrival Traffic Procedures

Bette Perot Elementary is **open to students starting at 7:35 a.m. daily**. Students will go straight to their classrooms, unless they are eating breakfast at school. Students who eat breakfast will go to the cafeteria to get their breakfast before going to the classroom. There is **no supervision for students dropped-off before 7:35 a.m.**, so we highly suggest students not arrive before that time.

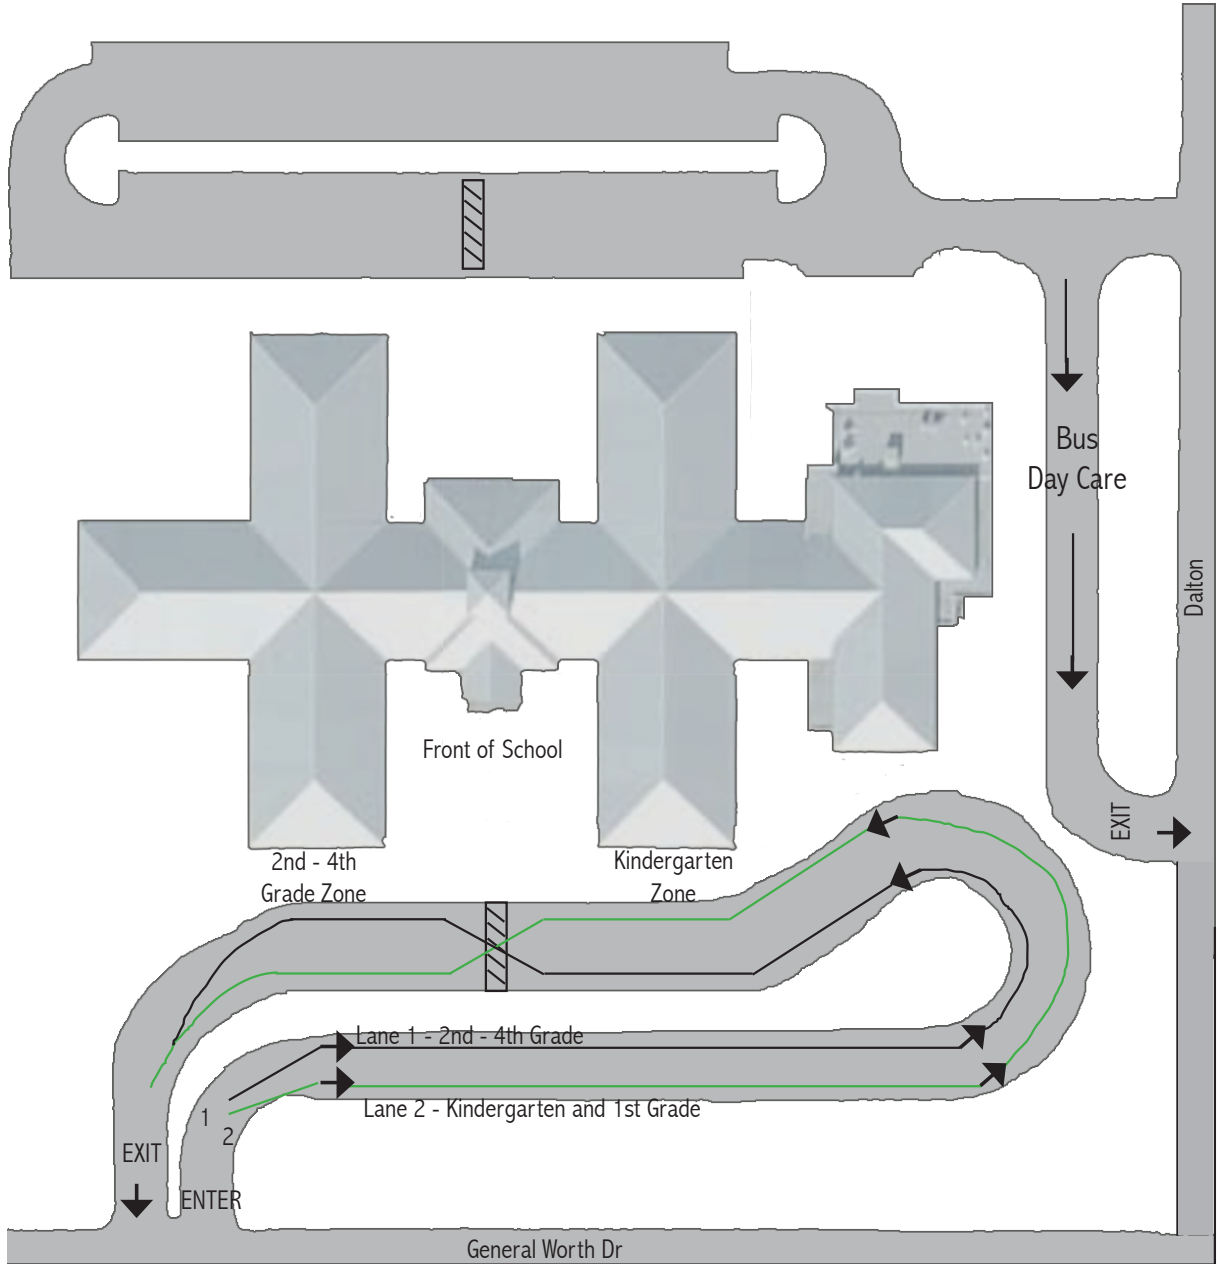

Refer to the traffic map on the reverse side for a visual of student arrival procedures, as well as, parking and no-parking areas. Remember that we have several hundred students arriving each day, and these procedures are put in place for every child's safety. Common courtesy and everyone following the procedures will help to make dismissal safe and quick for all.

Mobile phones are never to be used in the parking lot while your car is running.

1. **Kindergarten and First Grade students** (and their older school-aged siblings) who are dropped-off by car will enter the school from the Kindergarten wing (north canopy). Kindergarten and First grade parents will form a line in the right lane entering the parking lot. When you pull into the Kindergarten and First Grade Arrival Zone a teacher will help your child out of your car. A staff member will move your car line to the left-hand lane at the crosswalk so you may exit the parking lot.
2. **Second grade through Fourth grade students** will be dropped-off at the Second grade canopy (south canopy). Parents in the drop-off line for second grade through fourth grade will form a line in the left-hand lane entering the parking lot. A staff member will move your line to the right-hand lane at the crosswalk so you will be next to the building. When you pull into the Arrival Zone, your child may exit the car and enter the building through the second grade doors.
3. **Bus riders, walkers/bike riders, and daycare/transportation companies** will enter the school from the cafeteria door off of Dalton St.
4. Please help us make arrival as efficient as possible by teaching your child to unbuckle and open the car door so she or he is ready to exit the car on the passenger side of the vehicle.
5. Teachers and staff will stop visitors at all entrances and direct them to go to the front office entrance. To enter the building past the office, a parent or visitor must present a valid driver's license. This is not meant as an inconvenience for our families and friends, but as a safety measure for our students to control who has access to them during the school day.
6. **After 7:55** all students entering the building will be considered tardy and will come through the front office.
