EXECUTIVE SUMMARY KELLER INDEPENDENT SCHOOL DISTRICT FISCAL YEAR 2016-2017

BUDGET MESSAGE

The following document represents the financial plan for the Keller Independent School District for the 2016-17 fiscal year. The development and review of the 2016-17 budget included intensive consideration of each program, revenue source, and expenditure. The Board of Trustees, Superintendent, Finance department staff and campus and administrative staff all contributed to the development of this budget.

This budget document and the year-end Comprehensive Annual Financial Report (CAFR) are the primary vehicles used to present the financial plan and the results of operations of the District. The purpose of the budget document is to provide timely information concerning the financial status of the District in order to facilitate financial decisions that support the educational goals of the District. However, the District's main concern in the presentation of the budget document is to improve transparency regarding KISD's financial plan for educational programs and services for the 2016-17 year.

Major Initiatives and Accomplishments

Achieving More, Spending Less

Keller ISD ranks in the Top 25% Academically in the State of Texas, while ranking in the Bottom 20% in Spending.

KISD receives as much as \$800 less revenue per student than some of its neighboring districts due to Texas public school funding laws, which are currently being challenged by a lawsuit against the state. Despite this, Keller ISD maintains high standards of achievement:

Achieving Highest Standards of Performance

- 21 National Merit Finalists in the Past Three Years
- \$100 Million in Scholarship Offers Over the Past Two Years
- All 39 Campuses "Met Standard" in State Accountability System; 11 Earned Distinctions
- Recognized as "Best Community for Music Education" by NAMM Foundation (2 Years Straight)
- Pre-K Partnership Award from Board of Child Care Associates

Revenue from property taxes is the district's single largest source of revenue. Property values have risen consistently since the 2000-01 fiscal year.

The following graph depicts Keller ISD's increasing taxable property value activity over time.

TAX RATE

The District's tax rate consists of two separate components, a local maintenance rate and a debt service rate. Taxes are calculated by dividing the assessed property value (less exemptions, if applicable) by 100 and multiplying the result by the tax rate. The Tarrant County Appraisal District determines property values for Keller Independent School District.

The Texas Education Code limits a school district's maintenance and operations tax rate to \$1.04 per \$100 taxable valuation. A tax rate of up to \$1.17 (state allowed maximum) per \$100 taxable value requires voter approval. The District lowered the Interest and Sinking tax rate from \$0.50 to \$0.48 per \$100 taxable valuation for 2016-17.

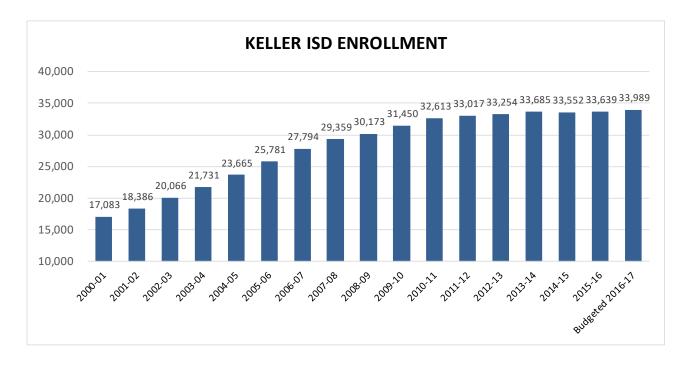

The graph that follows depicts the tax rate distribution over time...

ENROLLMENT

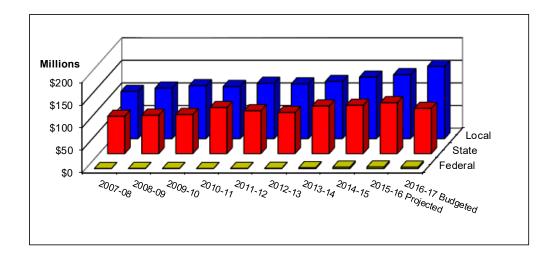

Keller ISD has grown significantly since 2000-01. The continual increases in enrollment have presented challenges to budgeting effectively for the District. However, beginning in fiscal year 2011-12, enrollment began to increase at a much slower rate. These changes are shown on the graph below.

REVENUE SOURCE TRENDS

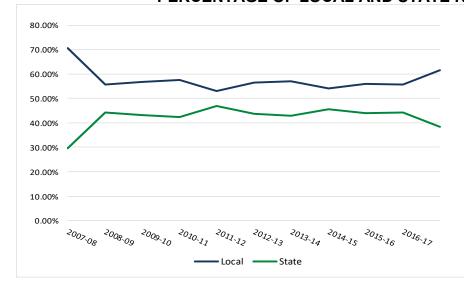

From fiscal year 2007-08 through 2015-16, the distribution of general fund revenue between Local and State sources has remained fairly consistent. Local funding for these years was between 53.13% and 57.11% while State funding remained between 42.46% and 46.87%. Due to significant increases in property values, local funding for the 2016-17 year increased to 61.51% and state funding decreased to 38.49%.

The amounts and percentages of total revenue by source from 2007-08 to 2016-17 are presented on the following graphs.

For the current budgeted fiscal year, approximately 38% of the General Fund budgeted revenue will be derived from state sources. Local funding sources are estimated at 60.7%. As the district's property values rise, more local revenue is generated which results in less state aid. The graph below shows the percentage of budgeted general fund revenue provided by local, state and federal sources.

2016-2017 REVENUE BY SOURCE

EXPENDITURES

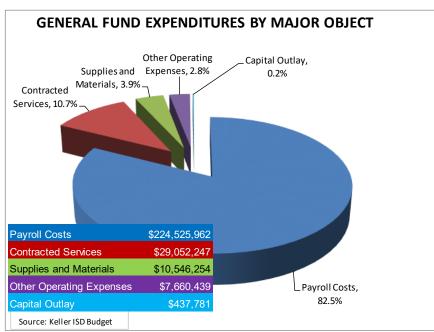

General Fund expenditures for 2016-17 are budgeted to increase by approximately \$6.1 million or 2.29% over projected actual 2015-16 expenditures.

The following table provides a comparison of expenditures by major object for current budget year as well as the two years prior.

The chart below reflects the budgeted general fund expenditures by major object as a percentage of total expenditures.

PAYROLL COSTS

As the education of students is a labor intensive process, payroll expenditures comprise 82.5% of General Fund budgeted expenditures. Payroll expenditures consist of salaries and benefits.

Budgeted expenditures for salaries are determined in accordance with established staffing guidelines that are based on projected student enrollment at each individual campus. Additional staff may be allocated to a school based upon student demographics or special programs.

Benefits provided to employees include health insurance, workers compensation, Medicare, and retirement benefits from the Teacher Retirement System (TRS). TRS on Behalf is not considered a true cost to the district because the district's expenditure amount is matched by revenue received from the state, creating a net effect of zero. Neither the revenue nor the expenditure for TRS on Behalf is budgeted, as the amount is generally unknown until year end.

Due to market conditions and the Affordable Health Care Act, Group Health Insurance premiums continue to increase.

In an effort to offset the rising cost of health insurance claims, Keller ISD provides a wellness clinic which provides free services to district employees enrolled in the district's health plan. The goal is to reduce claim expense in the Health Insurance fund, resulting in a healthier financial situation for that fund.

This salary plan is for the 2016-17 school year only.

This schedule does not predict future compensation.

Salary Advancement is based on the annual pay raise budget approved by the Board of Trustees each year.

[^]Based on a 187-day contract.

[^]Experience based on TEA approved creditable year of service.

[^]Base pay does not include any stipends or other salary supplements.

[^]For employees on contracts other than 187-days, the annual rate is based on the daily rate multiplied by the number of days worked, i.e., Campus Administrative Assistants, Learning Coach and Curriculum Designer.

ADMINISTRATIVE COSTS

The District strives to allocate the majority of its resources to the instructional function. Administrative costs are comparatively minimal. The following depicts the District's budget emphasis on curriculum and instruction, while continuing to control and monitor administrative expenditures. Administrative costs represent 2.57% of the total budget, whereas instructional related expenditures represented 65.23% of the budget.

Fund Balance Levels

Fund balance is the excess of assets over liabilities in a governmental fund. The District understands the importance of maintaining an adequate fund balance and usually strives to develop a balanced budget in each fiscal year.

KISD defines a balanced budget as one in which anticipated revenues equal or exceed anticipated expenditures thus creating no need to utilize the District's "savings account", or fund balance.

In accordance with Governmental Accounting Standards Board Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions, the district now classifies governmental fund balances as follows:

 Non-spendable Fund Balance – includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual requirements. Examples include inventories, long-term receivables, endowment principal, and prepaid items. Non-spendable fund balance currently consists of inventory and prepaid items.

2. Spendable Fund Balance

- a. Restricted Fund Balance includes amounts that can be spent only for the specific purposes as imposed by law, or imposed by creditors, grantors, contributors, or other governments' laws and regulations. Examples include federal and state grant programs, retirement of long-term debt, and construction. The district's financial statements currently reflect restrictions for retirement of long-term debt, the capital acquisition program, food services and grant funds.
- b. Committed Fund Balance—Includes amounts that can be used only for the specific purposes as determined by the governing body by formal action recorded in the minutes of the governing body. Examples include, but are not specifically limited to, Board action regarding construction, claims and judgments, retirement of loans/notes payable, capital expenditures and self-insurance.
- c. Assigned Fund Balance includes amounts intended to be used by the district for specific purposes. The governing body may delegate the authority to assign fund balance to a district official or body.
- d. Unassigned Fund Balance is the residual classification of the General Fund and includes all amounts not contained in other classification. Only the general fund will have unassigned amounts.

An analysis of changes in fund balance for the general fund, the child nutrition fund and the debt service fund appears on the next few pages.

The fund balance for Child Nutrition should not exceed three months of average Child Nutrition operations expenditures. Average monthly Child Nutrition expenditures are calculated by dividing the subsequent years budgeted expenditures by ten months since the Child Nutrition department only operates for ten months out of the year. The 2015-16 projected fund balance for the Child Nutrition fund is approximately \$2.1 million. Three months of average Child Nutrition expenditures would be \$3.8 million, based on 2016-17 budgeted expenditures.

Keller Independent School District FINANCIAL STRUCTURE AND BASIS OF ACCOUNTING

Organizational Profile

Description of Entity

The Keller Independent School was established in 1911 and provides education to students in Pre-Kindergarten (Pre-K) to 12th grade as well as special education and adult transition services for students up to age 22.

The Keller Independent School District is an independent public educational agency operating under applicable laws and regulations of the State of Texas. A seven member Board of Trustees elected to staggered three-year terms by the District's residents autonomously governs the District. The Keller ISD Board of Trustees ("Board") is the level of government which has oversight responsibility and control over all activities related to public school education within the District. The District receives funding from local, state and federal government sources and must comply with all the requirements of these funding source entities. However, the District is not included in any other governmental "reporting entity" as defined in generally accepted accounting principles.

The Texas Education Agency and Southern Association of Colleges and Schools provide the District's K-12 education accreditation.

KISD covers 51 square miles and serves portions of nine cities: Colleyville, Fort Worth, Haltom City, Hurst, North Richland Hills, Southlake, Watauga, Westlake and the entire city of Keller.

KISD delivers educational services by following an aligned curriculum. All courses and programs are facilitated through an electronic curriculum that aligns with state standards.

Governing Body

The seven member Board of Trustees serve, without compensation, a three year term in office. On a rotating basis, two or three places are filled during annual elections held the second Saturday of May. Vacancies may be filled by appointment until the next election. Candidates must be qualified voters of the District.

Regular meetings are scheduled the third Thursday of each month and are held at the Keller ISD Education Center. Special meetings and work sessions are scheduled as needed and announced in compliance with public notice requirements.

The Board has final control over local school matters limited only by the state legislature, by the courts, and by the will of the people as expressed in school Board elections. Board decisions are based on a majority vote of those present.

In general, the Board adopts policies, sets direction for curriculum, employs the Superintendent, and oversees the operations of the District and its schools. Besides general Board business, Trustees are charged with numerous statutory regulations including calling trustee and other school elections and canvassing the results, organizing the Board and electing its officers. The Board is also responsible for setting the tax rate, setting salary schedules, acting as a board of appeals in personnel and student matters, confirming recommendations for textbook adoptions and adopting and amending the annual budget.

The Board solicits and evaluates community input and support concerning actual policies.

Financial Structure and Basis of Accounting

Fund Accounting

The funds and accounts of the District have been established under the rules prescribed in the Financial Accounting and Reporting Module of the Texas Education Agency Financial Accountability System Resource Guide. This budget document contains detailed information for all funds for which the Board of Trustees is required to adopt annual budgets. Special Revenue funds (excluding Child Nutrition) are not included in this budget document except in summary form, but are included in the Comprehensive Annual Financial Report (CAFR). These funds are budgeted funds that are not required to be approved by the Board of Trustees. Budgets for all funds are prepared using the same method of accounting as for financial reports (modified accrual), except for the Capital Projects Fund budget, which is budgeted on a project basis. The Capital Projects Fund budget is not legally adopted on an annual basis. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon thereafter to pay any liabilities of the current period. There are no other variances between the accounting basis and the budgetary basis

Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for principal and interest on general long-term debt, which is recognized when due. Following is a description of the funds for which annual budgets are adopted.

General Fund

The General Fund is used to account for all financial transactions not properly includable in other funds. The principal sources of revenue include local property taxes, interest on fund investments and other operating expenditures. Expenditures include all costs necessary for the daily operation of the schools.

Special Revenue Funds

Special Revenue Funds are used to account for funds awarded to the District for the purpose of accomplishing specific educational tasks as defined by grantors in contracts or other agreements.

Child Nutrition – used to account for the District's Child Nutrition Program, including local, state, and federal revenue sources and all costs associated with the operation of the program.

Debt Service Fund

The Debt Service Fund is used to account for the payment of interest and principal on all bonds of the District. The primary source of revenue for the debt service fund is local property taxes.

BUDGET POLICIES AND DEVELOPMENT PROCEDURES

The State, the Texas Education Agency (TEA), and each local district formulate legal requirements for school district budgets.

Legal Requirements

Sections 44.002 through 44.006 of the *Texas Education Code* establish the legal basis for budget development in Texas school districts. The following items summarize the legal requirement from the code.

- The Superintendent is the budget officer for the District and prepares or causes the budget to be prepared.
- The district budget must be prepared by a date set by the State Board of Education, currently August 31.
- The President of the Board of Trustees must call a public meeting of the Board of Trustees, giving ten days public notice in a newspaper, for the adoption of the district budget. Any taxpayer in the district may be present and participate in the meeting.
- No funds may be expended in any manner other than as provided for in the adopted budget.
 The Board does have the authority to amend the budget or adopt supplementary emergency budgets to cover unforeseen expenditures.
- The budget must be prepared in accordance with GAAP (Generally Accepted Accounting Principles) and state guidelines. The budget is prepared on a modified accrual basis, which is the same basis of accounting used in the district's audited financial statements.
- The budget must be legally adopted before the adoption of the tax rate, with certain exceptions.

The Texas Education Agency (TEA) requires that budgets for the General Fund, Child Nutrition Fund and the Debt Service Fund be included in the official district budget. These budgets must be prepared and approved at least at the fund and function levels to comply with the state's legal level of control mandates. A school district must amend the official budget before exceeding a functional expenditure category in the total district budget.

Budget Development Process

With the guidance of the Board of Trustees, principals and administrators of the District, under the direction of the Chief Financial Officer and the Superintendent, develop the budget. All expenditure allocations are determined based on projected revenue from state and local sources with the goals of maintaining an appropriate fund balance, considering the tax burden of our taxpayers, while still meeting the District's educational goals.

The Finance department prepares revenue projections for all funds. These projections are based on enrollment projections, estimates of local tax revenue, state funding formulas, and other significant factors. The funding formulas are extremely complex. This complexity is compounded by changes that the legislature regularly makes when they meet every other year to consider revisions to the state funding formula and other issues.

Salaries and benefits comprise the majority of the annual General Fund operating budget. Therefore, the Board of Trustees gives careful consideration to staffing allocations for both instructional and non-instructional positions. Additional personnel units are evaluated by the Superintendent and his executive staff each year and, after extensive review and analysis, recommendations are presented to the Board of Trustees.

Personnel units are allocated to each campus based on projected student enrollment following state mandated ratios, as applicable. Additional staff may be allocated to a school based upon student demographics or special programs. The budget amounts are then developed for vacant positions based on the average cost of employees currently filling each position. Supplemental pay (stipends for coaches, department heads, etc.) is approved on a year—to—year basis and does not become part of the base salary of an employee. A salary supplement may be increased, decreased, or eliminated if the Board of Trustees determines this to be in the best interest of the District.

To decentralize the budget process for non-payroll related budget items, the District uses site-based decision making, where each campus principal and his/her staff, determine how to use allocated monies. Each campus receives a basic allotment per student which is to be used for supplies, materials, equipment, staff development, and other appropriate instructional costs. Campuses also receive a separate allotment which is to be used for library books.

Beginning with the 2013-14 budget, the district implemented a modified form of Zero Based Budgeting. At least one administrative function and several campuses start at zero and prepare a budget based on their Campus or Departmental Improvement Plan, the district's long-term and strategic plans, upcoming initiatives, and actual needs. Within a five-year cycle, all campuses and departments would have prepared a Zero Based Budget once.

Budgets for non-campus (departmental) units, including Child Nutrition, are developed by the central administrators. Each administrator is given an allocation based on the previous year's allocation plus any special allotments for recurring items which were approved in the previous year. The administrators must ensure that their budgets do not exceed the allocation amount. Any supplemental requests over and above their base allocation must be submitted in writing to the CFO. The Superintendent and his executive team review these requests and determine if any will be recommended to the Board for approval. If approved by the Board, these supplemental requests will be added to the departmental budget.

The Director of Finance develops the Debt Service Fund budget. This budget is constructed based primarily on tax base assumptions (for local revenue projections) and projected debt retirement requirements.

Following the development process, consolidated budgetary information is presented to the Board of Trustees in workshops and regular meetings. This information is summarized in a variety of different presentations and line item detail is provided, as requested.

The District solicits public input by advertising a public hearing in the newspaper. The proposed budget is available to the public prior to the public hearing. The Board may recommend potential budget adjustments after considering the public's comments and/ or recommendations.

Significant dates and events included in the budget development process are summarized on the budget calendar on the following pages of this document.

Capital Project Funds Budget Policies

Capital Projects Funds are used to account for the proceeds of General Obligation bonds and related interest earnings and the expenditures of these funds for the construction and equipping of school facilities, to purchase school sites, and renovations or repair of existing facilities. The Board of Trustees does not formally adopt the Capital Projects Funds budgets annually.

These budgets are prepared on a project basis, based on the proceeds available from bond issues and planned expenditures outlined in applicable bond ordinances. Each major construction contract is approved based on the existing availability of bond proceeds and/or approved but unissued bonds. However, the impact of the Capital Projects Funds budgets must be considered during the development of the annual budgets for all other funds. Future operating costs (staffing, utilities, etc.) associated with capital improvements and new facilities must be projected and included in the General Fund budget. Repayment of bonds issued for capital projects must be included in Debt Service Fund projections.

Additionally, certain capital outlay expenditures (such as high cost/unit furniture and equipment) may be budgeted both in the General Fund and the Capital Projects Funds.

BUDGET ADMINISTRATION AND MANAGEMENT PROCESS

Adoption of the official budget by the Board of Trustees is only the first step in the budget process. Following adoption, the budget administration and management process begins. The budget administration and management process is the process of regulating expenditures throughout the fiscal year to ensure that they do not exceed authorized amounts and that they are properly and legally used for the intended purposes.

Expenditure Control and Approvals

Expenditure appropriations are allocated between all organizations or cost centers (campuses, departments, etc.). The principal or department head (administrator) is accountable for their organization's portion of the General Fund budgets. Each administrator is authorized to approve the expenditure of funds within his/her organization, provided that funds are expended in accordance with District purchasing procedures and legal requirements, and with the adopted budget for that year.

This is accomplished through the use of the standard account code system prescribed by the Texas Education Agency, which includes an organization code. The code system is described in detail within this document. Each budget manager (or designee) is granted online access to the accounting codes for their organization. This access includes purchase and warehouse requisitioning, account inquiry and reporting capabilities.

Purchase Orders

The Board of Trustees approves all bid awards and contracts in excess of \$50,000 per year. Purchase orders (P.O.s) are prepared for all goods and services, except for those items listed below. Once a purchase request is entered and approved at the campus/department level, the requisition is forwarded to the Purchasing department for verification of proper vendor and compliance with legal purchasing procedures. The requisition is then forwarded to the Finance department for verification of proper account code, availability of funds and compliance with various administrative regulations. Additional levels of approval are required for grant funds and technology purchases. The District's financial software automatically forwards the requisition through all levels of approval. If the request is approved at all levels, the funds are encumbered and a purchase order is printed and mailed/faxed to the appropriate vendor. Encumbrances are reservations of appropriations for goods/services that have not been received. The purpose of an encumbrance is to ensure that obligations are recognized as soon as financial commitments are made to prevent the budget from being inadvertently exceeded due to lack of information about future commitments.

After the goods or services are physically received, the recipient forwards confirmation of receipt to the Accounts Payable department. The record of receipt and the vendor invoice are then matched to the purchase order. When all three have been received, payment is made. The encumbrance is liquidated at the time of payment.

Check Requisitions

Check requisitions are used for entry fees, registration fees, advances for student travel, refunds and payment for athletic and/or extracurricular officials, judges, etc. Travel reimbursement forms are used to reimburse travel expenses. Check requisitions and travel reimbursement forms, along with the appropriate supporting documents, are forwarded to the Finance department for review, approval and payment. Funds are not encumbered with check requisitions because payment occurs immediately and are not subject to the receipt of goods.

Amending the Budget

The budget is legally adopted at the fund and function level. All budget amendments between functions must be approved by the Board of Trustees *prior to* expenditure of funds. An example of such would be a transfer from one functional category (e.g. Library) to another functional category (e.g. Instruction). In addition, budget changes that would increase/decrease the overall fund are taken to the Board of Trustees for their approval prior to any expenditure of funds. All other (non-functional) adjustments are approved by the Finance department.

Monitoring the Budget

The District's interactive, on-line budgetary accounting and control system provides many useful reports to assist Board members, district staff and the Finance department in administering, monitoring and controlling the budget. This system provides many checks and balances to ensure that funds are not over-expended at the budgetary control account level. If sufficient funds are not available at the budgetary control account level, purchase orders and check requisitions cannot be generated nor checks written.

The Finance staff carefully monitors comparisons between budget and actual expenditures to maintain cost control and to guard against overspending for all budgeted accounts.

Relevant financial reports are posted to the District's website on a monthly or quarterly basis. These reports include property tax, investments, general fund financial position and check registers. The final step in the budget monitoring process is the evaluation of the results of operations, which are presented annually in the district's Comprehensive Annual Financial Report (CAFR).

Reporting to the Texas Education Agency (TEA)

The District budget must be submitted to the TEA via the Public Education Information Management System (PEIMS) transmission process as of the date established in the annual instructions for the system. The TEA monitors for compliance at the district level only. This monitoring is a legal requirement to ensure mandatory expenditure levels in certain areas. In addition, amended budgets are reflected on the schedule comparing budget and actual results in the Annual Financial and Compliance Report. The requirement for filing the amended budget with the TEA is formally met when the district submits its Annual Financial and Compliance Report.

General Fund

GENERAL FUND OVERVIEW

The General Fund is used to account for all financial transactions not properly included in other funds. The principal sources of revenue include local property taxes and state funding. Expenditures include all costs associated with the daily operations of the schools.

Revenue Trends and Assumptions

The largest portion of funding in the General Fund consists of local revenue is primarily derived from property taxes. The next largest source of revenue necessary to fund operating expenditures is derived from State funding sources. Federal revenue includes eRate revenue and Student Health and Related Services (SHARS) revenue.

Projected Current Tax Collections

Estimated amounts of tax revenue to be generated from the current levy are predicted using estimated taxable values, collection rates, and tax rates. A collection rate of 99% was used in estimating tax revenue. House Bill 1 of the 79th Legislature Third Called Special Session requires the tax rate to be reduced to 66.67% of the 2005-06 tax rate, which compressed the tax rate to \$.9557 for 2007-08 through 2016-17. An additional four pennies was available without voter approval, which the District has utilized each year since the 2007-08 budget year. A tax ratification election is required to raise the maintenance and operations tax rate about \$1.04. Keller ISD's current tax rate of \$1.04 for maintenance and operations. For the 2016-17 year, Keller ISD reduced the tax rate for debt service from \$.050 to \$0.48, for a total tax rate of \$1.52.

State Revenue Estimate

The calculations of state revenue are based on the current funding formula. Three of the most critical factors in estimating General Fund state aid are Average Daily Attendance (ADA) projections, Full Time Equivalent (FTE's) for special populations of students such as bilingual, gifted and talented, career/technology and special education students, and taxable property values.

Debt Service Fund

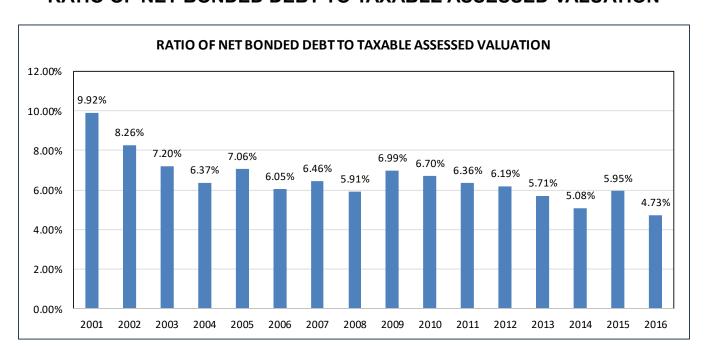

DEBT SERVICE FUND OVERVIEW

The Debt Service Fund accounts for payments of principal, interest, and related fees on the District's General Obligation bonds. Under Texas Law, only these Debt Service payments can be charged to this fund. A majority of funding is derived from a designated allocation of the property tax rate. Current requirements for principal and interest expenditures are accounted for in the Debt Service Fund. Proceeds of long-term issues are reflected as "Other Resources" in the operating statement of the recipient fund.

Debt Administration

Debt Service is a major area of cost due to the District's building program, which is primarily financed by the sale of general obligation bonds. The graph below depicts that as of August 31, 2016, the ratio of net bonded debt to Assessed Value for the District is anticipated to be 4.73%. Under state law, there is no explicit bonded indebtedness limitation, although a tax rate test effectively imposes a limit on the incurrence of debt. Chapter 45 of the Texas Education Code, as amended, requires a district to demonstrate to the Texas Attorney General that it has the prospective ability to pay debt service on a proposed issue of bonds, together with debt service on other outstanding "new debt" of the district, from a tax levied at a rate of \$0.50 per \$100 of assessed valuation before bonds may be issued. In demonstrating the ability to pay debt service at a rate of \$0.50, a district may take into account State allotments which effectively reduce the district's local share of debt service. Once the prospective ability to pay such tax has been shown and the bonds are issued, a district may levy an unlimited tax to pay debt service. Prior law limited debt to 10% of assessed value, and the District is below that level. All principal and interest payments are due February 15th and August 15th of each year. On February 1st of each year, outstanding taxes become delinquent, which permits the collection of a large majority of taxes levied before the long term debt payments are due.

RATIO OF NET BONDED DEBT TO TAXABLE ASSESSED VALUATION

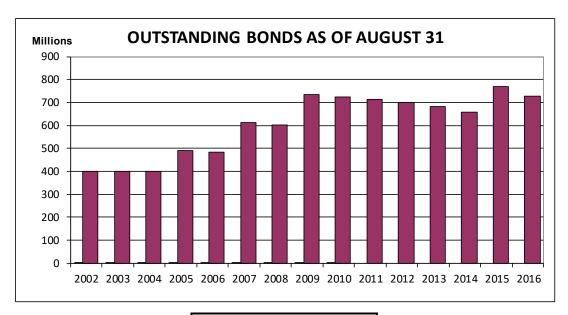

The District's bonds presently carry a favorable rating of Aaa with Moody's Investor Service and AAA with Standard and Poor's based upon the Permanent School Fund Guarantee or insurance. The district's current underlying ratings are Aa2 by Moody's Investor Service and AA by Standard and Poor's.

The following schedule and graph depict the District's Debt Service Retirement through 2040.

The following graph depicts the change in Keller ISD's Debt Service Fund revenue sources, 2008-2017. The district has derived increasing amounts of revenue from local sources as state revenue declines. The Existing Debt Allotment (EDA) and the Instructional Facilities Allotment (IFA) were eliminated by the State for the 2015-16 year; therefore, the State no longer contributes any revenue to the Debt Service Fund of KISD.

The District attempts to structure debt with a principal retirement schedule that allows the issuance of bonds with minimal increases to the Debt Service tax rate.

On April 15, 2016, the District issued \$70,915,000 in Unlimited Tax Refunding Bonds, with interest rates between 2.00% and 5.00% to advance refund \$84,895,000 of Series 2006 Bonds with original maturities between 2017 and 2031 and interest rates between 4.25% and 5.00%. The refunding was undertaken to reduce the District's total debt service payment over the next 16 years by approximately \$22,425,120 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of approximately \$18,569,898.69.

On April 15, 2016, the District also issued \$56,020,000 in Unlimited Tax Refunding Bonds, with interest rates between 2.00% and 3.00% to advance refund \$63,920,000 of Series 2006A Bonds with original maturities between 2018 and 2031 and interest rates between 4.00% and 4.50%. The refunding was undertaken to reduce the District's total debt service payments over the next 16 years by approximately \$13,428,565 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of approximately \$10,700,182.

The District defeased certain outstanding unlimited tax school building bonds from Series 2007 and 2009 by placing the proceeds of new bonds in an irrevocable trust to provide for future debt service payments on the old bonds. Accordingly, the trust accounts and the defeased bonds are not included in the District's financial statements. At August 31, 2016, \$123,250,000 and \$116,660,000 are considered defeased on Series 2007 and 2009, respectively.

Child Nutrition Fund

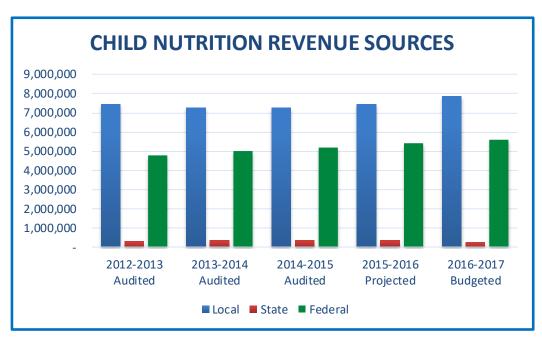

CHILD NUTRITION SPECIAL REVENUE FUND OVERVIEW

The District's food service operations are accounted for in the Child Nutrition Special Revenue Fund. Although Special Revenue Funds are generally not included in the annual budget adopted by the Board of Trustees, the TEA regulations require inclusion of the Child Nutrition Fund. Approximately 40.9% of the projected 2016-17 revenue in this fund is received from the United States Department of Agriculture (USDA) under the National School Lunch Program, the School Breakfast Program, and the Food Distribution Program. 1.86% is generated from state sources, and the remaining revenue, 57.2% is primarily generated from user fees – i.e. student payments for meals.

Child Nutrition expenditures for 2016-17 consist of payroll (35.84%), contracted services (63.05%), which includes payment for management services and food and commodities, other operating expenditures (.10%) supplies and materials (.86%), and Capital Outlay (.15%).

The District began using an outside vendor to manage the Child Nutrition program in the 2003-04 fiscal year. The current provider is Sodexo, Inc. Fund balance has increased from \$1,306,903 at August 31, 2003 to a projected budgeted balance of \$2,115,602 at August 31, 2016, an increase of \$808,699.

The budgeted ending fund balance for 2016-17 is projected to be \$2,965,602, which is an increase from 2015-16 of \$850,000. This increase is due to guaranteed income from the District's food service management company.

Federal Funds

Federally Funded Grant Funds

The District possesses \$6,885,766 of additional financial resources. These resources are accounted for in special revenue funds specifically mandated by the state. Although these funds are budgeted, the budgets are not legally required to be adopted by the Board of Trustees.

However, the majority of the funds listed below are state or federal grants and are subject to a multitude of regulations and reporting requirements. These funds may be used to "supplement, but not supplant" the general fund budget. Therefore they are used in conjunction with general fund budgeted funds to enhance a particular program.

Budgeted funds used in operation but not included in the budget approved by the Board of Trustees are listed below.

^{*} In 1991-92, the state established the County Education District (CED), an additional taxing unit. The CED was discontinued after 1993.

KELLER INDEPENDENT SCHOOL DISTRICT CLASSIFICATION OF REVENUES AND EXPENDITURES

Section 44.007 of the Texas Education Code requires that a standard school district fiscal accounting system be adopted by each school district. The system must meet at least the minimum requirements prescribed by the State Board of Education and also be subject to review and comment by the state auditor. Additionally, the accounting system must conform to Generally Accepted Accounting Principles (GAAP) as applied to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide (FASRG). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. This section further requires that a report be provided at the time the school district budget is filed, showing financial information sufficient to enable the State Board of Education to monitor the funding process and to determine educational system costs by school district, campus, and program.

A major purpose of the accounting code structure is to establish the standard school district fiscal accounting system required by law. Although certain codes within the overview may be used at local option, the sequence of the codes within the structure, and the funds and chart of accounts, are to be uniformly used by Texas school districts in accordance with GAAP.

BASIC SYSTEM EXPENDITURE CODE COMPOSITION

- Fund Code A mandatory 3-digit code is to be used for all financial transactions to identify the fund group and specific funds. The first digit refers to the fund group, and the second and third digits specify the fund.
- Function Code A mandatory 2-digit code that identifies the purpose of the transaction is applied to expenditures. The first digit identifies the major service area and the second digit refers to the specific function within the area.
- Object Code A mandatory 4-digit code identifying the nature and object of an account, a
 transaction or a source. The first of the four digits identifies the type of account or transaction, the
 second digit identifies the major area, and the third and fourth digits provide further subclassifications. In addition, KISD has incorporated two additional digits to the object code to define
 the subject (i.e., math, science, etc.). This allows for easy analysis of amounts expended for each
 subject.
- Sub-Object Optional code. Used at KISD to provide special accountability for certain programs or areas.
- Organization Code A mandatory 3-digit code identifying the organization, i.e., campus, department.
- Fiscal Year Code A mandatory single digit code that identifies the fiscal year of the transaction or the project year of inception of a grant project.
- Program Intent Code A 2-digit code used to designate services provided to students.
- Optional Code 3, 4, and 5 Optional code that may be used to further describe the transaction.

District revenues are classified by fund and object or source. There are three major sources: local sources, state sources, and federal sources.

Expenditure budgets are legally adopted at the fund and function level. However, within this document we have included several additional presentations of expenditures. These presentations segregate expenditures by either organization or by major object. Major object codes are used to describe the type of items purchased or services obtained. The major object codes used in this document are: payroll and related costs, contracted services, supplies and materials, other operating expenditures, debt service, and capital outlay. Fund codes are described in the preceding Financial Structure section. The following pages contain a description of the function codes used throughout this document.

CODE FUNCTION TITLE

10 Instruction and Instructional Related Services

11 Instruction

This function is used for activities that deal directly with the interaction between teachers and students. This function includes expenditures for direct classroom instruction and other activities that deliver, enhance, or direct the delivery of learning situations to students. Expenditures for the delivery of instruction in regular program basic skills, bilingual programs, compensatory, remedial or tutorial programs, gifted and talented educational programs, and vocational education programs are classified in function 11. For example, function 11 includes classroom teachers, teacher aides, and graders, but does not include curriculum/staff development (13) or principals (23).

12 Library/Media Services

This function is used for expenditures that are directly and exclusively used for resource centers, establishing and maintaining libraries, and other major facilities dealing with educational resources and media. For example, function 12 includes librarians, but does not include textbooks (11) or reference books in the classroom (11).

13 Curriculum Development and Instructional Staff Development

This function is used for expenditures that are directly and exclusively used to aid instructional staff in planning, developing, and evaluating the process of providing learning experiences for students. This function also includes expenditures related to research and development activities that investigate, experiment and/or follow-through with the development of new or modified instructional methods, techniques, procedures, service, etc. For example, this function includes staff that research and develop innovative, new, or modified instruction and staff who prepare in-service training for instructional staff, but does not include salaries of instructional staff when attending in-service training (11 or 12).

20 Instructional and School Leadership

21 Instructional Leadership

This function encompasses those **district-wide** activities, which have as their purpose managing, directing, and supervising the general and specific instructional programs and activities. For example, function 21 includes instructional supervisors, and Associate Superintendent for Instruction, but does not include principals (23).

23 School Leadership

This function includes expenditures for directing, managing, and supervising a school. It includes salaries and supplies for the principal, assistant principal, and other administrative and clerical staff, including attendance clerks.

30 Student Support Services

31 Guidance, Counseling, and Evaluation Service

This function includes expenditures for testing and assessing students' abilities, aptitudes, and interests with respect to career and educational goals and opportunities. It includes psychological services, testing, student evaluation and counseling.

32 Social Work Services

This function includes expenditures which directly and exclusively promote and improve school attendance. Examples include social workers and truant officers.

33 Health Services

This function is used for expenditures that directly provide physical health services to students, which are not a part of direct instruction. It includes medical, dental, and nursing services.

34 Student Pupil Transportation

This function includes the cost of providing management and operational services for transporting students to and from school. Function 34 includes transportation supervisors and bus drivers, but does not include field trips (11).

35 Food Services

This function includes the management of the Child Nutrition program at the schools and the serving of meals, lunches, or snacks in connection with school activities. Function 35 includes salaries for cooks and food purchases, but does not include concession stands (36).

36 Co/Extracurricular Activities

This function incorporates those activities, which are student and curricular related, but which are not necessary to the regular instructional services. Examples of extracurricular activities are scholastic competition, speech, debate, band, football, baseball, etc. Function 36 includes athletic salary supplements paid exclusively for coaching, directing, or sponsoring extracurricular athletics, but does not include salaries for teaching physical education (11).

40 Administrative Support Services

41 General Administration

This function includes expenditures incurred for the overall administrative responsibilities of the school district. It includes expenditures for the school board, superintendent's office, tax office, personnel services, financial services, and administrative attendance personnel.

50 Support Services - Non Student Based

51 Facilities Maintenance and Operations

This function deals with expenditures made to keep buildings, grounds, and equipment safe for use and in efficient working condition. Examples include janitors, facility insurance premiums and utilities.

52 Security and Monitoring Services

This is a function for which expenditures are directly and exclusively for activities to keep student and staff surroundings safe, whether in transit to or from school, on a campus or participating in school-sponsored events at another location. Examples include security guards, crossing guards and police.

53 Data Processing Services

Non-instructional data processing services which include computer facility management, computer processing, systems development, analysis and design. Personal computers (PC's) that are stand-alone are to be charged to the appropriate function. Peripherals including terminals and printers are to be charged to the appropriate function.

60 Ancillary Services

61 Community Services

This function encompasses all other activities of the school district, which are designed to provide a service or benefit to the community as a whole or a portion of the community. Examples would include recreation programs, natatorium, and parenting programs.

90 Intergovernmental Charges

93 Payments to Fiscal Agent/Member Districts of Shared Services Arrangements

This function code is used for expenditures that are for (1) payments from a member district to a fiscal agent of a shared services arrangements; or, (2) payments from a fiscal agent to a member district of a shared services arrangement.

95 Payments to Juvenile Justice Alternative Education Programs

This function is used for expenditures that are for the purpose of providing financial resources for Juvenile Justice Alternative Education Programs.

97 Payments to Tax Increment Fund

This function is used for the purpose of providing financial resources paid into a tax increment fund under Chapter 311, Tax Code.

99 Other Intergovernmental Charges

This function is used for amounts paid to other governmental entities such as county appraisal districts for costs related to the appraisal of property.

INDEPENDENT AUDIT AND FINANCIAL REPORTING

In accordance with Section 221.256, Texas Education Code, public school districts in Texas shall have their accounts audited annually. The audit shall be made on an organization—wide basis, and shall involve all fund types and account groups of the school district. In addition to meeting the requirements set forth in State statutes, the audit is also designed to meet the requirements of the federal Single Audit Act of 1984 and the related provisions of OMB Circular A-133 "Audits of State, Local Governments, and Non-Profit Organizations." Once the annual audit is complete, the Annual Financial Report is prepared and submitted to the Board of Trustees for approval. The Annual Financial Report is designed to meet the specific monitoring needs of the Texas Education Agency. Thus, a Comprehensive Annual Financial Report, conforming to the standards of both the Association of School Business Officials (ASBO) international and the Government Finance Officers Association (GFOA), is also prepared to better serve the needs of taxpayers and other financial statement users. The district was awarded the Certificate of Achievement for Excellence in Financial Reporting by GFOA and the Certificate of Excellence in Financial Reporting by ASBO for each fiscal year since 2006-2007.

Glossary

GLOSSARY

This glossary contains definitions of terms used in this guide and such additional terms as seem necessary to common understandings concerning financial accounting procedures for schools. Several terms, which are not primarily financial accounting terms, have been included because of their significance for school financial accounting. The glossary is arranged alphabetically with appropriate cross-referencing where necessary.

Abatement – A complete or partial cancellation of a levy imposed by a governmental unit. Abatements usually apply to tax levies, special assessments, and service previously recorded expenditure or receipt item by such things as refunds, rebates, and collections for loss or damage to school property.

Account – A descriptive heading under which are recorded financial transactions that are similar in terms of a given frame of reference, such as purpose, object, or source.

Accounting Period – A period at the end of which and for which financial statements are prepared; for example, September 1 through August 31.

Accrual – A method of accounting that recognizes the financial effect of transactions, events, and inter fund activities when they occur, regardless of the timing of related cash flows.

ACT – Acronym for American College Test.

ADA – Acronym for Average Daily Attendance.

Administration – Those activities which have as their purpose the general regulation, direction, and control of the affairs of the local education agency that are system-wide and not confined to one school, subject, or narrow phase of school activity.

AEIS – Acronym for Academic Excellence Indicator System.

AIS – Acronym for Accelerated Instructional Services.

Allocation – A part of a lump-sum appropriation which is designated for expenditure by specific organization units and/or for special purposes, activities, or objects.

Amendment – A proposal to change the amount or scope of an activity or project after the budget has already been submitted to the Board.

AP – Acronym for Advanced Placement.

Appraisal – (1) The act of appraising. (2) The estimated value resulting from such action.

Appraise – To make an estimate of value, particularly of the value of property. Note, if the property is valued for purposes of taxation, the less-inclusive term "assess" is substituted for the above term.

Appropriation Account – A budgetary account set up to record specific authorization to spend. The account is credited with original and any supplemental appropriations and is charged with expenditures and encumbrances.

Assess – To value property officially for the purpose of taxation. Note, the term is also sometimes used to denote the levy of taxes, but such usage is not correct because it fails to distinguish between the valuation process and the tax levy process.

Assessed Valuation – A valuation set upon real estate or other property by a government as a basis for levying taxes.

Assets – Property owned by a local education agency which has a monetary value.

Balance Sheet – An itemized statement that lists the total assets and the total liabilities of a given business to portray its net worth at a given moment of time. The amounts shown on a balance sheet are generally the historic cost of items and not their current values.

Benefits – A payment or entitlement, such as one made under an insurance policy or employment agreement, public assistance program, or something of value or usefulness.

Bill – (1) A term used to denote a law or statute passed by certain legislative bodies. A bill has greater legal formality and standing than a resolution. (2) A statement of an amount owing for goods and services sold on open account.

Board of Education – The elected or appointed body, which has been created according to State, law and vested with responsibilities for educational activities in a given geographical area. These bodies are sometimes called school boards, governing boards, boards of directors, school committees, school trustees, etc. This definition relates to the general term and covers State boards, intermediate administrative unit boards, and local basic administrative unit boards.

Bond – A written promise, generally under seal, to pay a specified sum of money, called the face value, at a fixed time in the future, called the date of maturity, and carrying interest at a fixed rate, usually payable periodically. The difference between a note and a bond is that the latter usually runs for a longer periods of time and requires greater legal formality.

Bonded Debt – The part of the school district debt which is covered by outstanding bonds of the district. Sometimes called "Funded Debt or Bonded Indebtedness."

Bonds Authorized and Unissued – Bonds that have been legally authorized but not issued and which can be issued and sold without further authorization.

Bonds Issued - Bonds sold.

Bonds Payable – The face value of bonds issued and unpaid.

Budget – A plan of financial operation embodying an estimate of proposed expenditures for a given period or purpose and the proposed means of financing them. The budget usually consists of three parts: The first part contains a message from the budget-making authority together with a summary of the proposed expenditures and the means of financing them.

The second part consists of schedules supporting the summary. These schedules show in detail the proposed expenditures and means of financing them, together with information as to past years' actual revenues and expenditures and other data used in making the estimates. The third part is composed of drafts of the appropriation, revenue, and borrowing measures necessary to put the budget into effect.

Budgetary Accounts – Those accounts necessary to reflect budget operations and conditions, such as estimated revenues, appropriations, and encumbrances, the net balance, and other related information.

Capital Budget – A plan of proposed capital outlays and the means of financing them for the fiscal period. It is usually a part of the current budget. A capital program is sometimes referred to as a capital budget.

Capital Outlays – Expenditures which result in the acquisition of or addition to fixed assets.

Capital Program – A plan for capital expenditures to be incurred each year over a fixed period of years to meet capital needs arising from the long term work program or otherwise. It sets forth each project or other contemplated expenditure in which the local education agency is to have a part and specifies the full resources estimated to be available to finance the projected expenditures.

CBA – acronym for Campus Based Assessment

CED – County Education District

Cocurricular Activities – Direct and personal services for public school pupils, such as interscholastic athletics, entertainments, publications, clubs, band, and orchestra, that are managed or operated by the student body under the guidance and direction of an adult, and are not part of the regular instructional program.

Community Services – Those services which are provided for the community as a whole or some segment of the community and which are not restricted to the public schools or adult education programs.

Consultant – A resource person who provides assistance to the regular personnel through conference, demonstration, research, or other means. There are two types of consultants; those retained on a temporary basis and those who are permanently employed.

Contracted Services – Labor, material, and other costs for services rendered by personnel who are not on the payroll of the local education agency.

CRE – Coordinated Review Effort - federal audit of child nutrition program

Credit Rating – A published ranking, based on detailed financial analysis by a credit bureau, of one's financial history, specifically as it relates to one's ability to meet debt obligations. The highest rating is usually AAA, and the lowest is D. Lenders use this information to decide whether to approve a loan.

Current – As used in this manual, the term has reference to the fiscal year in progress.
